

Town of Red Hook Highway Department
Notice to Town Residents

Street Sweeping

Every spring the Town of Red Hook Highway Department sweeps the streets as soon as the weather permits. This year we will be starting sometime after March 15th. Although there is no set schedule, due to weather variations, we have a guideline in place.

1. Developments will be swept before less populated areas
2. Residents should start raking any loose stone into the edge of the roadways as soon as they are able (when snow and ice has melted)
3. DO NOT make piles of stone; the sweeper cannot pick them up. Distribute the loose stone as evenly as possible at the road edge.
4. DO NOT include yard waste. The sweeper cannot pick up sticks and brush. Piles that contain unsuitable matter will be avoided.
5. Please be patient. We are sweeping 57 miles of road with one machine. It does take some time but we will get to everyone eventually.

The Highway crew thanks you in advance for your consideration and cooperation.
