

Aspinwall Bridge Open –ONE LANE

Following the inspection of the underside of the bridge on Aspinwall Road, between Manor and West Bard Avenue, the determination is as follows:

The bridge itself is safe for traffic and the Town of Red Hook Highway Department has opened ONE LANE for use. The edge of the road has been compromised by the recent flooding and has been blocked off for safety, pending repair. Residents are asked to please use extreme caution and reduce speed to accommodate oncoming traffic. Repair will begin as soon as we have the engineering plans. Thank you for your patience.
