Proposed Town/Village Sewer District

An informational meeting on a proposed sewer district will be held on Thursday, April 23, 2009 at 7:30 Pm at the Red Hook Firehouse on Firehouse Lane. Discussions will include location and type of system, as well as availability of funding. The public is encouraged to attend.

The Village and Town of Red Hook, in conjunction with assistance from Dutchess County Planning, Dutchess County Water and Waste Water Authority, NYS Environmental Facilities Corporation, NYS Rural Water Association and USDA Rural Development are examining the possibility of creating a central sewer system in the commercial center of Red Hook. The proposal is designed to help fulfill the Town's plans which call for strengthening our villages and enhancing our commercial districts while protecting scenic gateways and productive farmlands.
